

Complimentary Online Accounting Courses For CSUSM Pathway Students

*From the desk of
Colleen Manthey
International Admissions*

CSUSM offers complimentary online Accounting courses ACCT 201 Financial Accounting AND ACCT 202 Managerial Accounting through Palomar College.

NOTE: These courses are sequential; Financial Accounting must be taken prior to registering for Managerial Accounting. If your student would prefer to transfer without the second course ACCT 202 Managerial Accounting, they will take it here at CSUSM. We would prefer at least ACCT 201 Financial Accounting be taken prior to arrival at CSUSM.

PALOMAR COLLEGE NOTES:

- Your students will NOT need to register at Palomar College on their own. We will take care of it for you.
- Please provide CSUSM with a list of your student's information and we will work with Palomar College to set up the arrangements for your students.
- There will be no fee for the Accounting courses taken online at Palomar College.
- CSUSM will also provide an IT representative to provide support and assist your students to access their data portal for the Palomar College class.
- Palomar College accounting courses are offered Summer, Spring and Fall.

For more details, please contact International Admissions for more details.
